

**Comments Received on PA Memo #2
P-715 Ungulate Exclusion Fencing, Northwest Field (AAFB)**

Comment Number	Comment Type	Name or UserID	Comment	Responses
1	Letter	Guam SHPO	We concur with the “no adverse effect” determination with an archaeological monitoring plan for the undertaking. Please note that Figure 3 does not indicate the current inadvertent discoveries presented in our office for P-715, and it should, even though they have not been fully defined. In the future, when submitting PA Memo’s, please ensure that the maps are up to date with current findings.	The Navy shall provide up to date maps in future PA Memes.
