**MILITARY RELOCATION TO GUAM AND CNMI
 PROGRAMMATIC AGREEMENT (PA) MEMO #1**

Project: P-715 Ungulate Exclusion Fencing - RC 2019-0131 (revised determination)	Date: July 8, 2019 Comment Period Open Until: August 22, 2019
Project Location: Northwest Field (AAFB)	Prepared By: NAVFAC Marianas, MCAG PWD

PROJECT SUMMARY

The project proposes to construct an ungulate exclusion fence to exclude feral ungulates from the Life Fire Training Range Complex (LFTRC) at North West Field (NWF). A condition of the July 2, 2018 Dispute Resolution Agreement between the Department of the Navy (DoN) and the Guam State Historic Preservation Officer (SHPO) stipulates that archaeological monitoring of initial ground disturbance shall be conducted for specified projects, which include the P-715 ungulate exclusion fence.

This PA Memo #2 is in response to SHPO’s comments (dated May 15, 2019, RC 2019-0131) on PA Memo #1 from the Guam SHPO. The Guam SHPO requests that the DoN change its determination from “no historic properties affected” to “no adverse effect,” with the condition that a qualified archaeologist monitor initial ground disturbance within the ungulate exclusion fence Area of Potential Effect (APE), as stipulated in the Dispute Resolution Agreement.

The public is advised to refer to the PA Memo #1 (dated April 2, 2019) for the original description of the fence and its location. Pursuant to Stipulation XI of the 2011 Programmatic Agreement (PA) and in accordance with the Dispute Resolution Agreement, the DoN will notify the Guam SHPO of any new discoveries and will evaluate these discoveries to assess potential affects. The DoN will consult with the SHPO on an appropriate plan to resolve adverse effects if eligible sites are found through the additional monitoring. As noted in PA Memo #1, the fence line can be moved within the APE to avoid impact to historic properties. Please refer to Figure 1 and Figure 2 for maps included in PA Memo #1.

DETERMINATION OF ELIGIBILITY

While comments from consulting parties and the public are pending, the DoN has determined that there may be previously undocumented cultural resources near the P-715 ungulate exclusion fence APE. Should previously undocumented resources be encountered, the DoN will consult with the SHPO on an appropriate plan to resolve adverse effects, as per the July 2, 2018 Dispute Resolution Agreement.

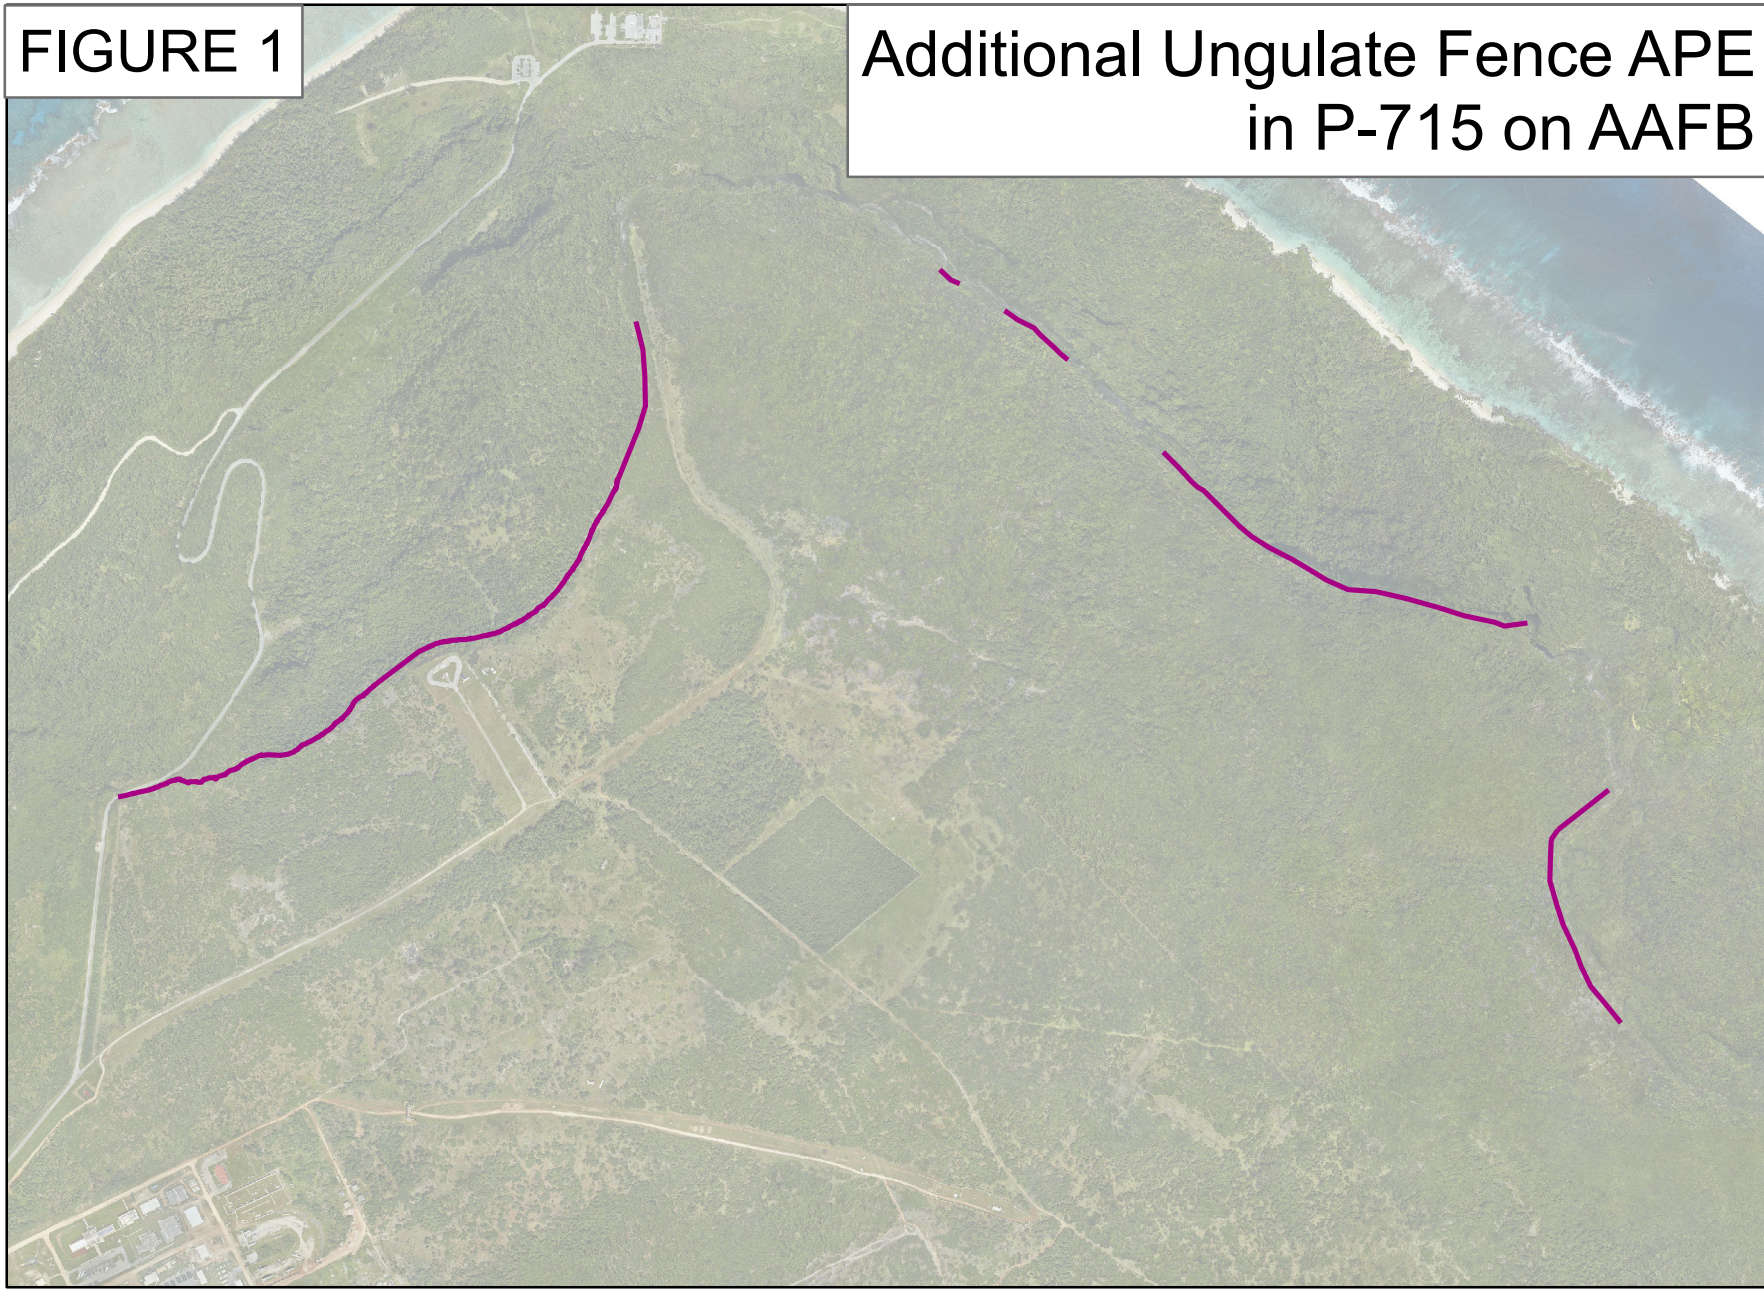

DETERMINATION OF EFFECT:

The DoN’s revised determination of effect for P-715 ungulate exclusion fencing is no adverse effect.

1 This PA Memo is required by Stipulation IV.E.2.a. of the PA as a means for interested members of the public to provide comments on the identification and evaluation of historic properties. Stipulation IV.E.1.b. of the PA requires the DoD to take into account comments received within 45 days of the date of the delivery of this PA memo to the SHPO and public notification via the CRI website.
