Final Guam Training Ranges Review and Analysis (TRRA) Now Available

PEARL HARBOR-HICKAM - Naval Facilities Engineering Command (NAVFAC) Pacific announced on July 21 the availability of the **Final Guam Training Ranges Review and Analysis (TRRA)**.

The Final Guam TRRA presents information on the location, orientation, design and operation of five Live Fire Training Range Complex (LFTRC) alternatives analyzed in the Final Guam and Commonwealth of Northern Mariana Islands Military Relocation (2012 Roadmap Adjustments) Supplemental Environmental Impact Statement (SEIS) with a focus on the potential effects to historic properties and natural resources of cultural importance.

The Final TRRA incorporates substantive feedback received during consultation on the Draft TRRA. Following is a summary of key changes reflected in the Final TRRA:

- Final TRRA has been reformatted to more clearly present information;
- The discussion of the LFTRC alternatives has been expanded to identify and review all known historic properties for each of the five alternatives;
- Discussion has been added to clarify and summarize what historic properties would be affected under each alternative; and
- Figures have been added to provide additional details on all five LFTRC alternatives including the proposed layout of the individual ranges and associated surface danger zones.

To view or download a copy of the Final TRRA, please visit the NAVFAC Pacific Cultural Information (CRI) website at <http://go.usa.gov/kZWG>. (Please note the URL is case sensitive).

Those without internet access can obtain a hard copy of the Final Guam TRRA from the Guam Historic Resources Division, located at 490 Chalan Palasyo, Agana Heights, 96910 (in the Department of Parks and Recreation Office).
