### **Public Service Announcement**

Reminder: Public Comments Accepted Through Nov. 17 for Expanded PA Memo  
in Support of the Guam Realignment

PEARL HARBOR – Naval Facilities Engineering Command (NAVFAC) Pacific issued today a reminder that the 45-day public comment period, for new information associated with a proposed project at Naval Base Guam, Telecommunications Site (NBGTS) in support of the Marine Corps Realignment, continues through Monday, Nov. 17 (Chamorro Standard Time).

**This memo provides an expanded project description, which differs slightly from the previous memo initially released on Aug. 22. Comments are being accepted for the Department of Defense's (DoD) identification and evaluation of historic properties and its determination of effect for J001B: Finegayan Utilities and Site Improvements Phase 1 (PA Memo #1).**

J-001B proposes the first phase of required utilities and site improvements at NBGTS, should NBGTS be the selected alternative for construction of a cantonment area to support the Guam and Commonwealth of Northern Mariana Islands (CNMI) Military Relocation.

Information regarding the proposed project is available to the public for a 45-day public comment period. The information can be found on the NAVFAC Pacific Cultural Information (CRI) website at <http://go.usa.gov/kZWG>. (Please note the URL is case sensitive). Comments may be submitted via email to [criwebcomment@navy.mil](mailto:criwebcomment@navy.mil).

Those without internet access can obtain a hard copy of the PA Memos from the Guam Historic Resources Division, located at 490 Chalan Palasyo, Agana Heights, 96910 (in the Department of Parks and Recreation Office).
