

Military Relocation Programmatic Agreement Semi-Annual Report January 1, 2022 – June 30, 2022

HR-1 Monument in Camp Blaz Main Cantonment
Barracks Under Construction in Background

**Prepared by Camp Blaz PWD
September 2022**

Section I. List all individual projects (as identified in Stipulation V.A) completed within the six-month reporting period that were determined to qualify for findings of No Historic Properties Affected or No Adverse Effect on Historic Properties. This list shall include the date of approval by the Cultural Resource Manager (CRM) and description of the project scope.

H-279 Multi-phase Demolition and Construction of Military Family Housing at Andersen Air Force Base (RC 2016-0001)
<ul style="list-style-type: none"> • 5/5/22: Supplemental PA Memo regarding change in the Area of Potential Effect (APE) delivered to SHPO with finding of No Historic Properties Affected • 7/1/22: SHPO non-concurrence (refer to Section II)

J-017-V Waterline Interconnect DESIGN STUDIES
<ul style="list-style-type: none"> • 7/28/22: PA Memo for Design Studies delivered to SHPO with finding of No Historic Properties Affected <ul style="list-style-type: none"> ○ The proposed project includes design studies for an interconnected waterline and upgrades to existing infrastructure to support a new water system. ○ Design study efforts will include topographical surveys and geotechnical surveys ○ No comments were received from SHPO

P-309 Infantry Battalion Facilities; P-324 9th Engineer Support Battalion Headquarters; P-325 9th Engineer Support Battalion (RC 2022-0363)
<ul style="list-style-type: none"> • 2/2/22: PA Memo 1 Delivered to SHPO with finding of No Historic Properties Affected • 3/18/22: SHPO responds with non-concurrence; refer to Section III for details

J-014 Physical Training Complex; J-035 Education Center; J-318 Public Works/Maintenance Shops; J-323 Base Motor Pool (RC-2022-0364)
<ul style="list-style-type: none"> • 2/2/22: PA Memo 1 delivered to SHPO with finding of No Historic Properties Affected • 3/18/22: SHPO responded with non-concurrence • Refer to Section II

Section II: List all individual projects (as identified in Stipulation V.A.) completed within the six months for which supplemental consultation under this PA has been conducted, including the determination of effect and any mitigation measures identified.

H-279 Multi-phase Demolition and Construction of Military Family Housing at Andersen Air Force Base (RC 2016-0001)
<ul style="list-style-type: none"> • 5/5/22: Supplemental PA Memo regarding change in the Area of Potential Effect (APE) delivered to SHPO with finding of No Historic Properties Affected • 7/1/22: SHPO non-concurrence (refer to Section II) <ul style="list-style-type: none"> ○ SHPO stated that the ACHP Program Comment for Capehart/Wherry family housing does not apply to the building because it is a visitor quarters

- 7/21/22: Camp Blaz responds
 - Facility is covered under Program comment for Cold War unaccompanied Personnel Housing (quotes AAFB ICRMP and the relevant ACHP Program Comment), stating that Navy has met its responsibilities for compliance for the list of actions covered by the program comment.
 - Navy clarifies that proposed utility work in the area will include no construction or demolition. Finding of **No Historic Properties Affected** stands.

P-735 Multi-Purpose Machine Gun (MPMG) Range (RC 2019-0053)

- 10/8/21: SHPO comments on End of Field Letter (EOF) received
- 1/20/22: Revised EOF delivered to SHPO
- 1/27/22: Additional comments from SHPO on revised EOF
 - SHPO comments will be addressed in the technical report
- 8/1/22: Draft date recovery report transmitted to SHPO (next reporting period) with comments due Sept 15, 2022
- No comments had been received at the time of this reporting period.

J-014 Physical Training Complex; J-035 Education Center; J-318 Public Works/Maintenance Shops; J-323 Base Motor Pool (RC-2022-0364)

- 2/2/22: PA Memo 1 delivered to SHPO with finding of **No Historic Properties Affected**
- 3/18/22: SHPO responded with non-concurrence
 - Requested:
 - Preservation in place of any possible CHamoru burials in the area
 - Additional use of traditional place names
 - In-text citations and full references in the reference section
 - Including additional references
 - Detailed explanation of “survey efforts”
 - Confirmation that all discoveries and burials are reported to all PA Parties
 - Details of provisions for post-review discoveries
 - Stated concurrence with finding of “**no historic properties affected**” on condition that protocols for post-review discoveries are in place (**this is concurrence**)
 - Expressed concerns related to deeper pockets of soil within undulating bedrock
 - Stated that the bibliography should repeat the references in the PA Memo for P-324, P-325, and P-309

Section III. Additional coordination under this PA initiated (Stipulations I.A and I.E) within the past six months as a result of changes or additions to the Undertaking. DoD shall provide a summary showing the project name, date of adverse effect notification and status of consultation.

H-279 Multi-phase Demolition and Construction of Military Family Housing at Andersen Air Force Base (RC 2016-0001)

- 5/5/22: Supplemental PA Memo regarding addition to the Area of Potential Effect (APE) delivered to SHPO with finding of **No Historic Properties Affected**

- 7/1/22: SHPO non-concurrence (refer to Sections I and II)

P-309 Infantry Battalion Facilities; P-324 9th Engineer Support Battalion Headquarters; P-325 9th Engineer Support Battalion (RC 2022-0363)

- 2/2/22: PA Memo 1 Delivered to SHPO with finding of **No Historic Properties Affected**
- 3/18/22: SHPO responds with non-concurrence; stating that the burials near the project are historic properties
 - SHPO recommends using **No Adverse Effect**, on condition that monitoring continues and that all possible burials (except Japanese), regardless of disturbance or completeness are preserved in place
 - Other SHPO comments:
 - Provide citations in the text for referenced studies and full references in the Reference Section, suggests specific reports to include in the Memo
 - Provide details on survey efforts
 - Provide the full scope of human remains found in or near the project area
 - Confirm that all discoveries are reported to all PA parties and requests clarification on who is receiving the information
 - Requests information on how new individuals or organizations can become involved in the process
 - Requests full-time monitoring of further ground disturbance in the vicinity of the project area, expressing concerns for deeper pockets of soil within undulations of the bedrock
- 4/5/22 Camp Blaz responded to SHPO comments with the following points:
 - Assured SHPO that no construction would occur within investigation areas subject to consultation on burials
 - The determination of **No Historic Properties Affected** remains valid for areas that have been graded to bedrock or compacted fill
- 4/21/22 SHPO responded to Camp Blaz' response to SHPO comments
 - SHPO repeated request for clarification of provisions made for post-review discoveries in locations that have yielded a high concentration of archaeological resources including human remains. This comment repeated the earlier comment verbatim.
 - Repeated request for monitoring and preservation in place

Section IV: Summary of progress on the implementation of mitigation measures specified in Stipulations VI, VII and VIII.

Stipulation VI.A.1: Mitigation Plans

- **J-755 Urban Combat Training Complex, Andersen South (RC#2013-1101)**
 - 2/14/22: Addendum work plan for discovery areas 13-18 delivered to SHPO.
 - 4/7/22: Addendum work plan (general Work Plan) for remaining sites not covered by previous work plans delivered to SHPO.
 - 4/25/22: SHPO comments received:
 - Thanks Camp Blaz for addressing SHPO concerns and accommodating recommendations for revisions

- Disagrees with statement that vertical artifact movement is confined to locations experiencing freeze/thaw cycles
 - Wants UXO to be treated as archaeological resources and discussed in technical report
 - Wants Shovel test strategy developed for P-735 to be used in J-755
- **P-745 Relocation of US Fish and Wildlife Facilities, Ritidian (RC 2022-0283)**
 - 1/24/22: SHPO responded to P-745 Draft Archaeological Survey and Discovery Plan (ASDP)
 - 1/28/22: Camp Blaz responded to SHPO letter dated 1/24/2022
 - 2/25/22: SHPO responded Camp Blaz letter
 - 3/25/22: Revised Final ASDP submitted to SHPO
 - 5/2/22: SHPO responded Revised ASDP
 - 6/15/22: Revised Final Archaeological Survey and Discovery Plan submitted to SHPO
 - 6/27/22: SHPO concurred

Stipulation VI.A.2: Data Recovery Reports

None were submitted during this reporting period.

- Stipulation VI.B: Public Education and Interpretation**
- No additional educational booklets were produced during the reporting period. Digital copies of existing booklets can be obtained from the Navy Cultural Resources Information website (<https://pacific.navfac.navy.mil/About-Us/Cultural-Resources-Information/>). When you reach the website, click “About Us” to access Cultural Resource information, including opportunities to comment on PA Memos.
 - Construction of a memorial monument at the location of burials that were preserved in place was completed at the HR-1 location in J-001B.
 - Installation of a marker and artifact display at the location of the Magua site is pending completion of landscaping in the area selected by SHPO.
 - Design for an indoor display of archaeological and educational material at the Camp Blaz Visitor Center is proceeding.
 - Planning for an outdoor interpretive area at the main entrance to Camp Blaz featuring artifacts and native plants representing life on the Northern Plateau continues; request for funds has been submitted.
 - Note that visiting the indoor and outdoor exhibits will not require obtaining base access.

Stipulation VI.D.1: Cultural Resource Awareness

- An additional 115 contractors received CR training between Jan 1 and June 30, 2022

Stipulation VI.D.2: Access to Historic Properties on DoD Lands

- Access Plan Coordinator (APC) is working with National Park Service to schedule regular bus tours to Naval Base Guam Munitions Storage Area (NBGMS) sites

- Note that the sites on NBGMS, particularly sites with latte sets, are among the best preserved on the island
- See Sec. VIII for status

Stipulation VI.F: Professional Oversight

- Camp Blaz archaeologists consult regularly with Naval Base Guam and Andersen Air Force Base Cultural Resource Managers (CRM) and with the Joint Region Marianas CRM to ensure oversight of actions and mitigations related to the Marine Corps Relocation. Camp Blaz archaeologists are also in consultation with NAVFAC PAC archaeologists by phone or email daily.
- Camp Blaz archaeologists conduct site visits to inspect progress, respond to contractor requests for information and report to the Contract Officer’s Representative on any issues.
- Camp Blaz archaeologists communicate with SHPO and the State Archaeologist regarding discoveries and requests for information.
- There are currently two Secretary of the Interior (SOI) qualified archaeologists at Camp Blaz, with efforts to fill a vacant position in progress

Stipulation VI.G: Update of Historic Properties Information

- Contracts for archaeological investigations, whether for surveys or data recovery, require that the contractor prepare a new or updated (as appropriate) Guam Historic Property Inventory (GHPI) form for the property to include a NRHP status recommendation.
- GHPI numbers are issued by SHPO.
- P-608 Survey Report included new and revised site forms for known sites based on survey results.
- SHPO has provided GHPI numbers for these sites.

GUAM-SPECIFIC MITIGATIONS (STIPULATION VII)

Stipulation VII.B.1: Signage at South Finegayan

- While Relocation actions (housing) are no longer proposed at South Finegayan, the requirement to update the interpretive sign at the South Finegayan Latte Stone Park remains in the 2011 PA.
- Plans for the interpretive signage and rehabilitation of the area around the latte set including removal of dead trees, grass cutting, etc., have been completed and submitted for approval.
 - The interpretive signage will incorporate information obtained during a 2016 NBG investigation of the features around the standing latte set.
 - Park boundary will be expanded and delineated by a decorative fence
 - There is also opportunity to manage this requirement with other interpretive needs or initiatives beyond the 2011 PA

Stipulation VII.B.2: Maintain Access to Southern Mountain Trail

- There have been no actions restricting access to the Southern Mountain Trail.

Stipulation VII.C.2: Assist SHPO with Update of Guam Comprehensive Preservation Plan

- This requirement occurs at 5-year intervals for the life of the PA.
- 2022 is the next target date for Camp Blaz to assist SHPO with the update of the 2017 Preservation Plan. The SHPO liaison will play a significant role in this update.

Stipulation VII.C.2: Prepare/Update Stand-alone Guam Synthesis

- The initial Synthesis, published in 2019, consisted of a two-volume set that started after Guam SHPO completed the Historic Preservation Plan in 2017.
- The Synthesis update is funded for 2022 and will provide an opportunity to include new information from military relocation investigations, particularly those on the Northern Plateau.
- Camp Blaz intends to provide a public summary of the updated Synthesis in response to requests from several individuals. This will be posted on the Navy CRI website.
-

Stipulation VII.C.3: National Register of Historic Places (NRHP) Nominations

This stipulation requires that DoD prepare at least two NRHP nominations per year for historic properties on DoD land.

- Camp Blaz is taking measures to improve the routing systems for nominations for both Navy and Air Force in an effort to speed up the review process.
- Planning for 2022 Nominations is currently in progress (details in table).

STATUS OF NRHP NOMINATIONS AS OF JUNE 30, 2022 (**highlighted sites** have Brochure/Pamphlet)

Calendar Year	Property Name	Status
2012	Talisay (66-02-2366)	Listed in NRHP
2012	Tumon-Maui Well (66-01-2278)	Listed in NRHP
SHPO	Mahlac Pictograph Cave (66-02-1985) By SHPO	Listed in NRHP
2013	Dobo Springs Latte Set Complex (66-02-0151)	Listed in NRHP
2013	North Field AAFB	North Field nomination was prepared by NAVFAC PAC and NAVFAC MAR at recommendation of AAFB CRM, based on HAER completed as partial mitigation of adverse effects on North Field. Nomination is on hold by AAFB.
2014	Dãdi Beach Defensive Bunker (66-02-1303)	Listed in NRHP
2014	Pãpa'etnon (66-02-2330)	Pending routing through JRM

2015	Maulap River Complex (66-02-1978)	Keeper returned nomination with minor comments
2015	Sagáyan Atmagosa (66-02-2337)	With NBG
2016	Torres Farmstead (66-08-2717)	With AAFB
2016	Tarague Well #4 (66-07-1586)	With AAFB
2017	Songsong Má'gas (66-09-1935) & Guekon Yu'us (66-09-1940)	With NBG
2018	Arizona Room, AAFB (66-07-1588)	Completed SHPO review, provided traditional name of "Taioppe"- with Camp Blaz for routing.
2018	Straggler's Cave AAFB (66-08-1515)	Completed SHPO review, with Camp Blaz for routing
2018	Block Rock Shelter, AAFB (66-08-1516)	Completed SHPO review, with Camp Blaz for routing
2019	Pugua Point site (cut steps) proposed by SHPO	Completed SHPO review, with Camp Blaz for routing
2019	Pugua Point site (Site 13) proposed by SHPO	Completed SHPO review, with Camp Blaz for routing
2019	JRM Conference Table Constructed for a March 1967 conference between civilian and military leaders of US and South Vietnam and recently featured in a documentary hosted by JRM PAO and Guam Parks and Historic Sites historian.	Completed SHPO review, with Camp Blaz for routing
2020	66-02-2341 contains two latte sets and has a Spanish component	Field work completed in 2021 due to COVID delays. Received Draft Feb 2022; internal review at Camp Blaz
2020	66-02-2344 contains two latte sets and two associated quarries	Field work completed in 2021 due to COVID delays. Received Draft Feb 2022; internal review at Camp Blaz
2020	66-02-2339 is a single latte set with associated rock shelter	Field work completed in 2021 due to COVID delays. Received Draft Feb 2022; internal review at Camp Blaz
2021	66-02-2348 is a Latte Period site in Naval Base Guam Munitions Storage Area.	Fieldwork completed; Received drafts March 2022; internal review at Camp Blaz
2021	66-02-2350 is a Latte Period site in Naval Base Guam Munitions Storage Area.	Fieldwork completed; Received drafts March 2022; internal review at Camp Blaz
2022	Camp Blaz is proposing nomination of three sites in the Tarague Embayment, a fourth site at the Live Fire Training Range Complex, plus a Multiple Property Nomination. This is a thematic	2022 update: contract has been awarded

	<p>nomination for upland agricultural sites, coastal villages and the network of stone lined paths that connect them in the Tarague Embayment. The sites include 66-07-1614, a Latte Period coastal village at Tarague, 66-07-1637, an upland agricultural site, 66-07-1638, a well-preserved section of the network of stone-lined path that connect the agricultural sites with coastal villages and fresh water sources. These sites will be used to develop the context for these and similar sites in the Tarague Embayment. The fourth nomination is a multi-component site near the Known Distance Rifle Range. The site is important for providing early dates that demonstrate pre-latte activities on the Northern Plateau.</p>	
--	---	--

Stipulation VII.C.4.a: Cultural Repository Funding	
<ul style="list-style-type: none"> • DON advocated for funding and secured Congressional authorization. Office of Economic Adjustment granted \$12 million to Office of the Governor. • Construction has been completed on the University of Guam campus • Tour of the completed facility was offered at Annual Workshop in August 2022 • When the facility is staffed and ready to receive collections, JRM will begin transferring collections to the facility. • Note that the facility is intended to house all Guam collections, not just JRM. 	

Stipulation VII.C.4.b: Museum Complex Advocacy	
<ul style="list-style-type: none"> • DON provided a white paper explaining the effort to secure funding and to meet the commitment for advocacy. No federal agency was able to provide funding for a museum complex. 	

Stipulation VII.D: National Park System on Guam	
<ul style="list-style-type: none"> • No impacts to NPS related to the military relocation have been reported. 	

Stipulation VIII: Tinian Mitigations	
<ul style="list-style-type: none"> • Tinian mitigations stipulated under the 2011 PA remain on hold. 	

Section V. List projects to be completed in the next reporting period, including the determination of effect and any mitigation measures required.

Note: Projects listed in Section V are anticipated during the next reporting period; however, timing may vary due to scheduling decisions.

J-008 Finegayan Fire Station
<p>This project consists of two parts: the fire station building and a training area. The fire station is located on Road 10 south of the traffic circle on the main entrance road.</p> <ul style="list-style-type: none"> • Note that the project was consulted on in 2011; the station was shown as being south of the baseball field in that consultation • This is a revision due to changes in APE (separating the fire station from the training area). • As of this report, alternate locations for the training area are being considered • Depending on the location selected, additional investigation may be necessary

J-609 Apra Harbor Embarkation Operations Facility
<ul style="list-style-type: none"> • Project is for vertical construction of a proposed Embarkation Operations Facility for loading and unloading with horizontal installation of associated utilities and infrastructure improvements in the Apra Harbor area at U.S. Naval Base Guam. <ul style="list-style-type: none"> ○ 6/11/2020: Design PA Memo was delivered to SHPO ○ 8/30/2022: PA Memo for construction was delivered to SHPO with determination of No Historic Properties Affected.

P-745 Relocation of USF&W Facilities at Ritidian (RC 2022-0283)
<p>In accordance with the 2020 MOA with the Department of Interior, Department of Defense must relocate the existing US F&W facilities at Ritidian to a location within the refuge. In addition, DoD must provide access to recreational areas of Ritidian outside the Surface Danger Zone of the firing ranges on the plateau above the beach area</p> <ul style="list-style-type: none"> ○ To comply with the provisions of the MOA, DoD, represented by USMC Camp Blaz, will carry out the requirement to relocate the facilities ○ Relocation will use existing roads ○ Archaeological investigations will be conducted ahead of construction ○ Results of archaeological investigations will provide information for planning construction to avoid or minimize impacts on historic properties ○ Consultation with SHPO <ul style="list-style-type: none"> ▪ Camp Blaz EV initiated consultation early in the planning process ▪ 1/12/22: Camp Blaz submitted revised draft survey and discovery plan for SHPO review ▪ 2/25/22: SHPO provided comments on Draft Archaeological Survey and Discovery Plan (13 pages of comments) <ul style="list-style-type: none"> ▪ Concerns about interagency agreement and ARPA requirements ▪ Concerns regarding previous surveys in the area. ▪ Requests including Chamorro names for villages

- Requests placing tic marks showing coordinates on edges of satellite imagery
 - Comments on methods, details on cultural contexts
- 3/25/22: Meeting between Camp Blaz EV and SHPO
 - SHPO states that USF&W will not sign an ARPA permit without SHPO approval
 - SHPO wants AMDP to include more recent references; Camp Blaz responded that we anticipate a revised work plan
 - State Archaeologist offered to provide a 1954 map showing 20 haligi in the proposed project area (Camp Blaz archaeologists used the map and located remnants of the set)
- 3/25/22: Camp Blaz submits revised survey and discovery work plan to SHPO
- 4/7/22: SHPO response refers to details in the Archaeological Survey and Discovery Plan (ASDP) that need to be addressed in the fieldwork and reporting; states that SHPO does not approve the ASDP and makes several comments and “requirements”
- 5/2/22: SHPO provided additional comments on the work plan
 - Commented on document format
 - Commented on fieldwork
 - Commented on items to be included in the technical report (includes several SHPO “requirements”)
- 6/15/22: Revised Final Archaeological Survey and Discovery Plan submitted to SHPO
 - 6/27/22: SHPO responds to Camp Blaz response; confirms receipt of ASDP for attending to SHPO recommendations and accept the ASDP and the proposed project.

J-017-V Waterline Interconnect

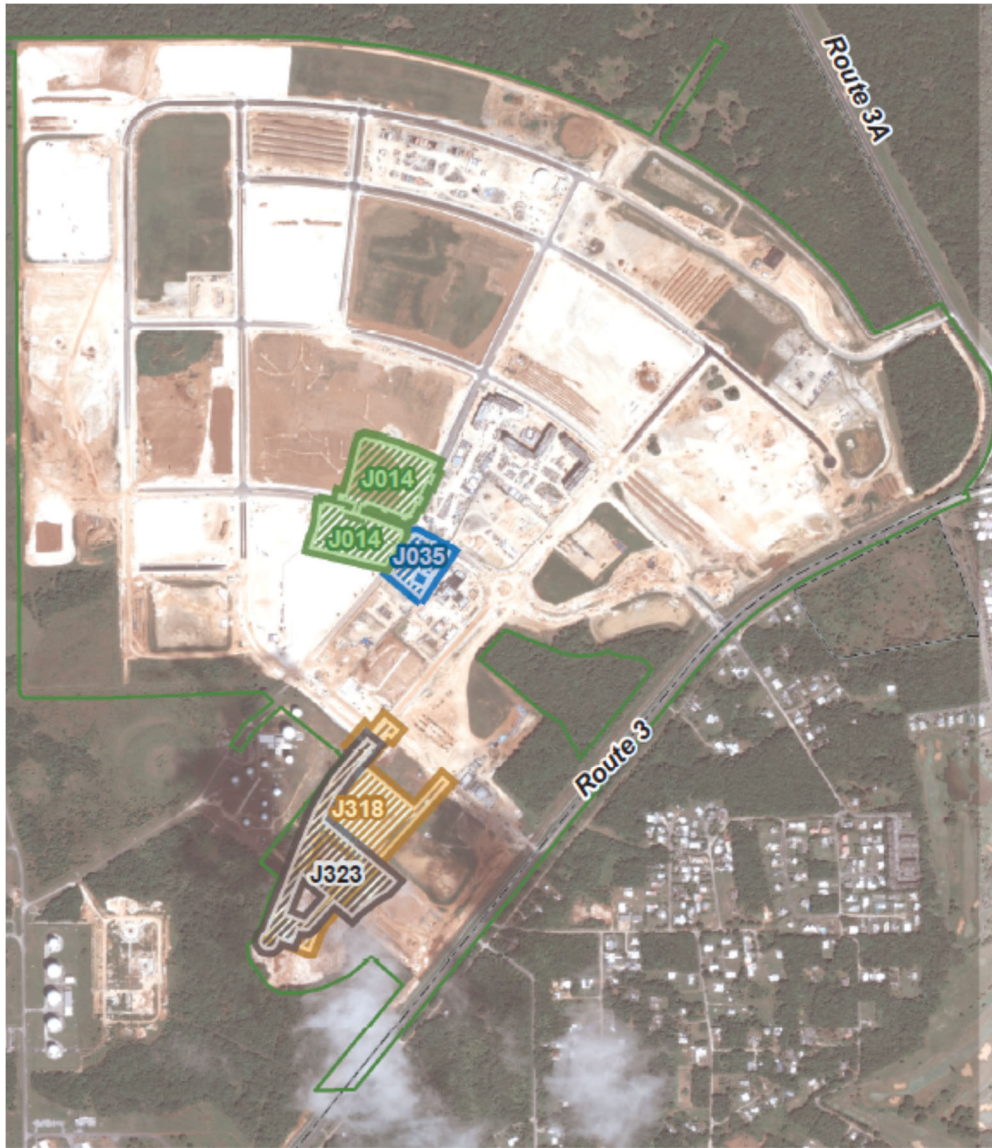

- July 28, 22: Project for Design Studies for the waterline was delivered to SHPO with finding of No Historic Properties Affected and the comment period ending September 10, 2022
- Subsequently, a conflict with another project was identified, resulting in the need to relocate a section of the waterline
- A Revised PA Memo showing the change will be submitted for review

Section VI. Include maps showing the project areas and DoD project numbers, as well as any portions of the APE where sensitivity designations have been changed as a result of further identification and evaluation efforts.

P-745 Relocation of US Fish and Wildlife Facilities, Ritidian

J-014 Physical Training Complex; J-035 Education Center; J-318 Public Works/Maintenance Shops;
J-323 Base Motor Pool

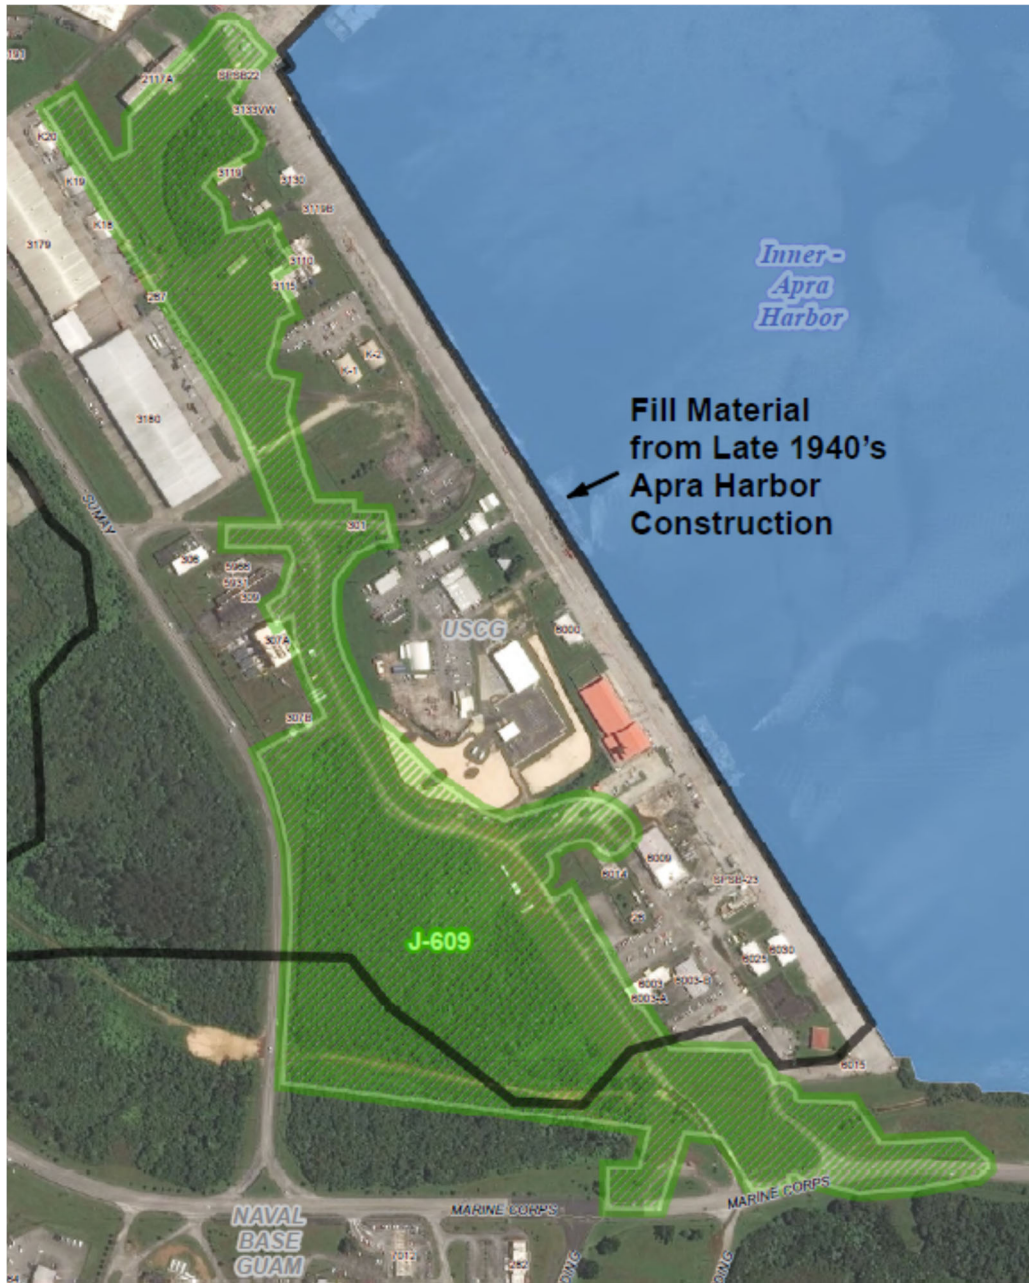

H-279 Military Family Housing at Andersen Air Force Base

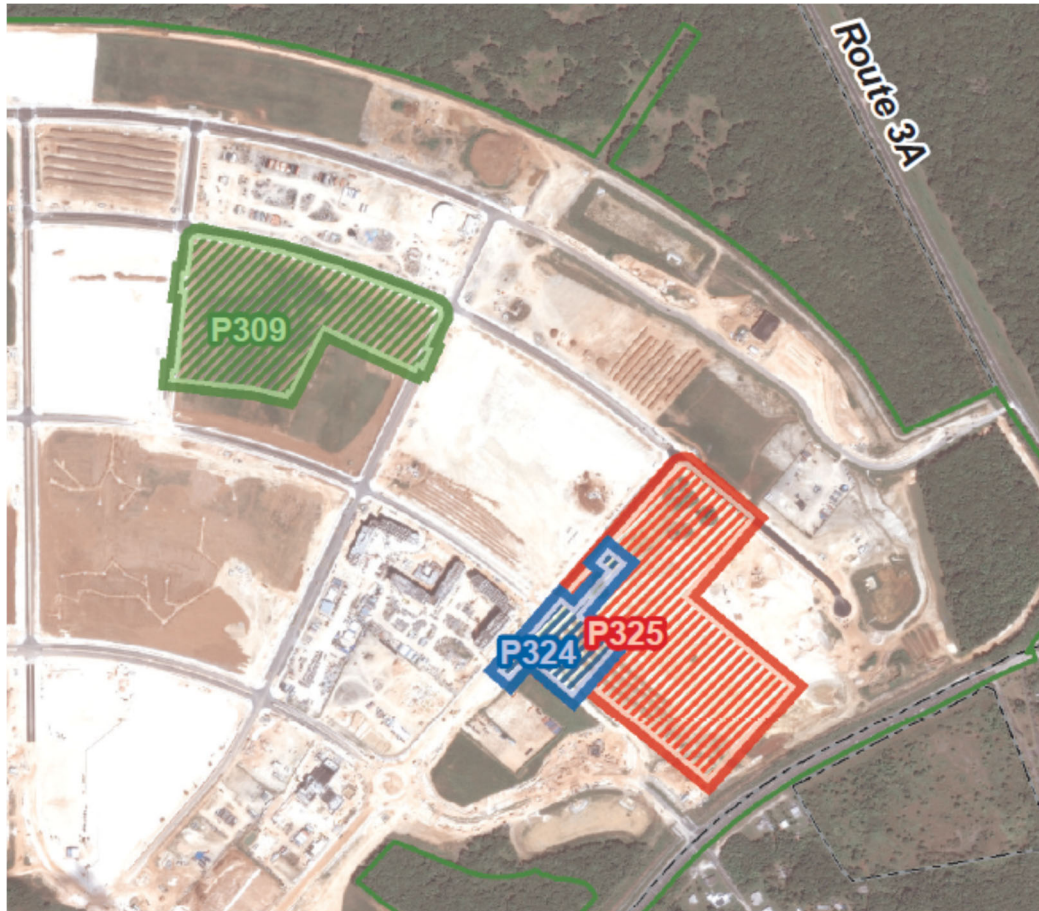

J-017-V (Initial proposed route; future reroute will avoid conflict with another project)

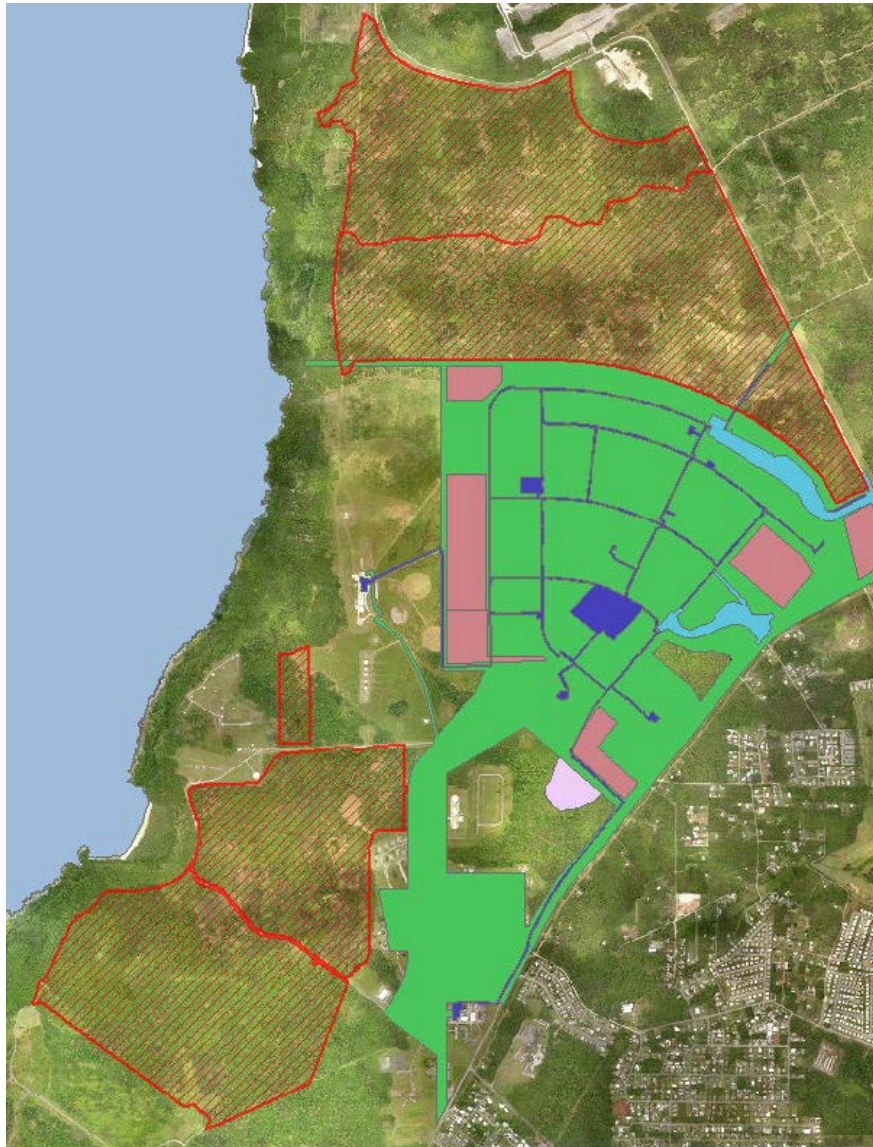

J-609 Apra Harbor Embarkation Facility

**P-309 Infantry Battalion Facilities; P-324 9th Engineer Support Battalion Headquarters;
P-325 9th Engineer Support Battalion**

North Finegayan and Finegayan Forest Enhancement Sites (RC 2021-0952)

Section VII. Results of all dispute resolution efforts under Stipulation XIII

J-755 Andy South Construction
<ul style="list-style-type: none">• Monitoring continues in road corridors;• Most current and future effort is completing investigations of HR sites;• Work in HR-5 resulted in discovery of 14 burials, most in poor state of preservation.

J-001B Utilities and Site Improvements
<ul style="list-style-type: none">• Construction of J-001B is nearing completion• 2/11/22: Construction of the HR-1 monument was completed, with final inspection on 2/11/22

- Archaeological monitoring, required by the 2018 Resolution Agreement, led to discovery of a human tooth with incised pattern indicative of Latte Period practices
 - Investigations led to discovery of seven burial locations, preservation in place and construction of the burial monument at the location
 - Currently, archaeological work consists of investigation of remaining human remains discoveries
 - An archaeological monitor is present to monitor any remaining disturbance.
- A decision is pending regarding disposition of remaining burials in Area D of J-001B for which SHPO has recommended preservation in place

P-715 LFTRC
<ul style="list-style-type: none"> • Construction completed, final inspection conducted, monitoring concluded • Draft technical report anticipated

P-735 Multi-Purpose Machine Gun Range
<ul style="list-style-type: none"> • 2020 Resolution Agreement extended monitoring to P-735 <ul style="list-style-type: none"> ○ 8/30/2021 Camp Blaz notified SHPO of discovery of multiple fragments identified as human remains in a shovel test pit. ○ 5/13/2022 SHPO concurred that there are no grounds for preservation in place of fragmented “possibly human” remains <ul style="list-style-type: none"> ▪ Expect monitoring of those locations that could not be excavated due to MEC presence. ▪ Stated that expanded site boundary of 66-08-2856 should have been data recovered to the same extent that newly discovered sites were data recovered ○ 5/18/2022 Delivered EOF to SHPO for SOP investigation of human remains in non-burial context

P-103 Water Well Development (RC 2016-0122)
Vegetation clearing started in April 2022. Archaeological monitoring currently ongoing per 2018 Resolution Agreement.

Section VIII. Provide summary data about public access from the Public Access Plan.

Access Plan Coordinator (APC) Report
<ul style="list-style-type: none"> ○ Working with National Park Service to facilitate schedule bus tours to the Naval Base Guam Munitions Storage Area ○ Activities in 2021 included donation of High Value Trees (trees of cultural importance) to traditional artisans (carvers and canoe builders) ○ Collection and distribution of several species of medicinal plants ○ Collection of native seeds and plants

- Collection of lumot
- APC is working to increase participation in the program

ADDITIONAL INFORMATION

Stipulation IX: Provide SHPO Liaison

- The position is funded through the Center for Environmental Management on Military Lands (CEMML) at the University of Colorado.
- The Liaison is stationed full-time at SHPO,
- As of 2022, efforts are underway to hire another SOI-qualified liaison through CEMML.

Finegayan Forest Enhancement Sites (RC 2021-0952)

- Project proposes forest enhancement activities within the North Finegayan and Finegayan Forest Enhancement Sites (FES). Activities include clearing access paths, removal of invasive floral and faunal species, outplanting, and maintenance of outplanting sites.
- The requirement for this action is stated in the 2015 Biological Opinion for the Department of the Navy's Relocation of the U.S. Marine Corps from Okinawa to Guam and Associated Activities on Guam, and subsequent amendments to this document
- 7/9/21: PA Memo submitted 7/9/21
- 11/12/21: Camp Blaz submitted FES summary archaeological monitoring work plan to SHPO
 - 1/5/22: SHPO provided comments to work plan
 - Request for FES maps
 - Recommendations for Archaeological Technician Interns
 - Recommendations regarding field methods
 - 2/3/22: Camp Blaz responded to SHPO comments
 - FES maps provided
 - FES summary archaeological monitoring plan revised to address SHPO comments
 - 2/28/22: SHPO responded to Camp Blaz response
 - Further questions regarding field methods and previous archaeological surveys
 - Recommendations for an addendum surface and subsurface work plan
 - 4/22/22: Camp Blaz responded to SHPO comments
 - FES maps were provided
 - Camp Blaz addressed SHPO concerns regarding previous archaeological surveys stating archaeological monitoring will be provided for ground-disturbing activities, known NRHP-eligible archaeological sites will be avoided, and any post-review archaeological discoveries (human remains or potentially significant archaeological sites) will be consulted with SHPO.
 - 5/10/22: SHPO responded to Camp Blaz response
- 3/25/22: consultation meeting with SHPO regarding archaeological work at the FES
