QUESTIONNAIRE

1. Please describe your degree of familiarity with the Naval Base Kitsap (NBK) Keyport Records of Decision (RODs) for Operable Units (OUs) 1 and 2; the implementation of the remedies at these OUs; the monitoring and maintenance that has taken place since implementation of the remedies; and recommendations made during the fifth five-year review (FYR) finalized in 2020. For reference OU 1 includes only one active site, whereas OU 2 includes two active sites, as follows:

- OU 1 – Former Base Landfill
- OU 2 Area 2 – Van Meter Spill and Drum Storage Areas
- OU 2 Area 8 – Former Plating Shop

Response:

2. What is your overall impression of the on-going effectiveness of the components of the OU 1 remedy? For reference, the primary remedy components are:

- Phytoremediation at the former landfill using hybrid poplar trees
- Removal of polychlorinated biphenyl (PCB)-contaminated sediments from the marsh
- Upgrade of the tide gate
- Upgrade and maintenance of the landfill cover
- Long-term monitoring
- Contingent actions for off-base domestic wells
- Institutional controls

Response:

3. What is your overall impression of the on-going effectiveness of the components of the OU 2 remedy? For reference, the primary remedy components are:

- Institutional controls and groundwater monitoring at Area 2
- Excavation and off-site disposal of vadose-zone soil at Area 8
- Institutional controls and monitoring of groundwater, sediments, and shellfish at Area 8
