

Naval Air Station Whidbey Island Restoration Advisory Board Acronym List

µg/kg – microgram(s) per kilogram

µg/L – microgram(s) per liter

AFFF – aqueous film-forming foam

AOP – Advanced Oxidation Processes

AST – aboveground storage tank

AR – Administrative Record

bgs – below ground surface

CERCLA – Comprehensive Environmental Response, Compensation, and Liability Act of 1980
[Superfund or Federal Cleanup Law]

CIP – Community Involvement Plan

COC – chemical of concern

CR – cancer risk

DCA – dichloroacetic acid

DCE – 1,2-dichloroethane

DoD – Department of Defense

DoW – Department of War

DW – drinking water

ECCOI – Environmental Cleanup Communication and Outreach Initiative

Ecology – Washington State Department of Ecology

EE/CA – Engineering Evaluation and Cost Analysis

EOD – explosive ordinance disposal

EPA – Environmental Protection Agency

ERP – Environmental Restoration Program

FS – Feasibility Study

FOIA – Freedom of Information Act

Naval Air Station Whidbey Island Restoration Advisory Board Acronym List

FY – fiscal year

FYR – Five-Year Review

GAC – granular activated carbon

GETR – groundwater extraction treatment and recharge

HQ – Hazard Quotient

HFPO-DA – perfluoro-2-methyl-3-oxahexanoic acid

ICs – Institutional Controls

ICPH – Island County Public Health

LHTR – Lake Hancock Target Range

LTM – long-term monitoring

LTMgt – long-term management

LUC – Land Use Control

MCL – maximum contaminant level

MDAS – Material Documented as Safe

MNA – monitored natural attenuation

MMRP – Military Munitions Response Program

MS Teams – Microsoft Teams

OLF – Outlying Landing Field

NASWI – Naval Air Station Whidbey Island

NAVFAC – Naval Facilities Engineering Systems Command

ng/L – nanogram(s) per liter

PA – Preliminary Assessment

PAO – Public Affairs Officer

PFAS – per- and polyfluoroalkyl substances

PFBA – perfluorobutanoic acid

Naval Air Station Whidbey Island Restoration Advisory Board Acronym List

PFBS – perfluorobutanesulfonic acid

PFDA – perfluorodecanoic acid

PFDODA – perfluorododecanoic acid

PFHxA – perfluorohexanoic acid

PFHxS – perfluorohexanesulfonic acid

PFNA – perfluorononanoic acid

PFOA – perfluorooctanoic acid

PFODA – perfluorooctadecanoic acid

PFOS – perfluorooctane sulfonate

PFPrA – perfluoropropanoic acid

PFTetA – perfluorotetradecanoic acid

PFUDA – perfluoroundecanoic acid

PP – Proposed Plan

ppb – part(s) per billion

ppm – part(s) per million

ppt – part(s) per trillion

Q&A – Question & Answer

RAB – Restoration Advisory Board

RAO – Remedial Action Objective

RGs – remedial goals

RI – Remedial Investigation

ROD – Record of Decision

RPM – Remedial Project Manager

RSL – Regional Screening Level

SI – Site Inspection

Naval Air Station Whidbey Island Restoration Advisory Board Acronym List

SL – screening level

SME – Subject Matter Expert

TCE – trichloroethylene

TCRA – Time-Critical Removal Action

TFSI – Bis(trifluoromethylsulfonyl) imide anion

VC – vinyl chloride

VOCs – volatile organic compounds

VZW – vadose zone pore water

UST – underground storage tank

UUUE – unlimited use and unrestricted exposure

VZW – vadose zone pore water

WAC – Washington Administrative Code

WWTP – wastewater treatment plant
